

Cub Scout Workshops Spring 2010

March Winds Blow! March 7th 1-4 pm \$7
Come explore the history of kites with this hands-on workshop. See models of different kites and learn the principles of flight. We'll build a kite for you to sail in the March winds.

Water Rescuers April 25th 1-3 pm \$7
The Blue Planet –our planet- needs your help! Explore the many ways that our water systems become polluted as we challenge your mind to the water cleanup experiment. Learn how actions here in our back yard affect water hundreds of miles away. Boys will leave with a pledge to make a difference on our planet. Perfect for Tigers and Wolves!

**Who's that Worker in My Neighborhood?
May 2nd 1-3 pm \$7**

Come join us in our theatre as we meet professionals in different careers and learn how they got started, what kind of education they needed for their career, and get a hands-on look at some tools of the trade. Past visitors have included a detective, a vet, a nurse, a yoga instructor and many more! Leave the hard part of scheduling special guests to us!

Wild and Wacky Worms! May 16th 1-3 pm \$7

Eww! Yuck! AWESOME! We'll get our hands dirty as we explore worms, worms, worms: their anatomy, how they move, what they eat, and why they are so important to our ecosystem. Boys will be amazed with hands-on experiments and of course nibble on a sweet worm once we are done.
