

Transportation Money Available for Fall 2019 Field Trips!

With field days, concerts, and testing, the end of the year is hectic enough. Beat the rush and schedule your field trip for the fall! **The Discovery Center of the Southern Tier is offering \$200 towards busing for groups who book a visit between September 23rd and December 20th.** Come explore our hands-on children's museum and take part in one of our interactive educational programs, including our seasonal offerings only available in the fall and winter!

Field trip with 15 Minute Program: Groups of all sizes can enjoy a short educational show! Choose from old favorites like *How the Bee Got Its Stinger* and *Bubbleology* or our brand new *Explosive Pumpkin* program! \$6 per person plus program fee (0-20 kids=\$15, 21-50 kids=\$25, 51-100 kids=\$35)

Field trip with 1 Hour Program: Make the most of your time at the Discovery Center with a one hour workshop. We'll provide all the materials for a fun and engaging program that reinforces your curriculum. Why not try one of our exclusive seasonal programs?
\$10 per student, 1 free chaperone per 10 students, \$6 per each additional chaperone

Contact Heather Ryan to reserve your program today!

Exclusive fall and winter programs!

***NEW* Explosive Pumpkin!**

Ever wanted to try the exploding jack o'lantern experiment but don't want to deal with the cleanup? We'll take care of it all! This 15 minute program of creepy chemistry makes a fun and affordable addition to your field trip.

PreK-5th, 15 minutes

Animals in Winter

How do animals survive during the cold winter months? Using songs and movement activities, we'll learn about animal adaptations for survival when it's cold outside and food is scarce.

PreK, 1 hour

Spooky Five Senses

Hop on the brain train as we explore how each of our five senses makes sense of the world around us. Moving from station to station, students will complete our "You're Sensational" booklet to help them see how our senses help our body work... with a Halloween twist!

K-5, 1 hour

Candy Math- Trick or Treat or Gingerbread City

Math will never be this sweet! Learn about the history of trick or treating or gingerbread and practice your STEM skills as we work with counting, pattern making, sorting, building, and measuring—all using candy!

Trick or Treat- October only (costumes welcome!), Gingerbread City- November and December only
K-5, 1 hour

Who, Who's Living in That Tree?

You can find them in rain forests, the desert, the snowy tundra, and even your own backyard. Who are they? They're owls! Learn all about the adaptations that make life in different habitats possible. We'll even get a chance to find out what they're eating by dissecting an owl pellet!

2-5, 1 hour

Acorns Away!

Would you like to live inside an acorn? It may be cramped but for some insects it's a cozy home. In this guided lab we'll make predictions, conduct tests, and collect data to find out whose acorn is doubling as a house! This program makes a great introduction to lab safety and the scientific method.

2-5, 1 hour
